## CV summary

I hold a Bachelor's degree in Computer Science from Nangarhar University and have hands-on experience in database and IT-related roles. I have worked as a Database Developer Assistant and Database Officer, where I developed a strong interest in how computer systems, data, and technology can be applied to solve real-world problems. Currently, I am working as an IT Officer at Ariana University, supporting IT infrastructure and academic systems. These experiences have strengthened my passion for computer science and motivated me to deepen my knowledge through a Master's degree. I am eager to pursue graduate studies to advance my technical expertise, broaden my academic foundation, and prepare for professional and research opportunities in the field of computer science.
